## EDUCATION

### Bachelor of Science in Mechanical Engineering

Montana State University – Bozeman, MT

Relevant Courses: Material Science, Finite Element Analysis, Thermodynamics, Vibrations, Machine Design

## ENGINEERING EXPERIENCE

### Prototype Bunker-Buster Missile

(August 2025-May 2026)

Montana State University Capstone for Los Alamos National Labs

- Developed robust, dynamic ABAQUS models for how nose cone support rods would buckle during impact with varying loads over an impact duration
- Coordinated with Montana State Faculty and Los Alamos engineers to ensure that deadlines and requirements were met sufficiently
- Wrote and compiled a comprehensive technical addendum describing the lifespan of the missile
- Gained experience carburizing 1020 steel in potassium-carbonate

### RC Turret-Rover

(January 2025 – May 2025)

Montana State University

- Designed an aimable, 3-axis, multi-servo turret mechanism to accurately launch projectiles
- Wired and assembled stepper motors to work in tandem with an existing controller
- Modeled and printed various tread and wheel assemblies
- Collaborated with other engineers to ensure vertical compatibility with wholly separate systems

### Manufacturing Intern

Resolute Lighting *Seattle, WA*

(Summer '19)

- Acquired comprehensive knowledge of entire product development life cycle from initial concept and design through production to finished outcome to obtain a clear understanding of each stage and its role in delivering a successful outcome
- Developed proficient skill in welding by working closely with a field-professional, gaining hands on experience and improving upon technique to receive expert feedback
- Cut and prepared light diffusers, organized and labeled boxes for efficient storage and moved pallets, ensuring a safe and streamlined workflow while optimizing space and maintaining product standards

## RELEVANT EXPERIENCE

### Admissions Ambassador & Orientation Leader

Montana State University (Admissions Office) *Bozeman, MT*

(February 2022-August 2025)

- Facilitate 1-on-1 meetings with prospective students from a variety of backgrounds to foster honest conversations about the MSU student experience
- Led perspective students and families in groups averaging in 15 attendees to offer applicants a thorough and encompassing view of the university's facilities as well as offer anecdotal advice
- Provide mentorship to underclassmen by instilling valuable knowledge during informational sessions to empower students
- Managed a group of 25+ students throughout a 3-day orientation session to aid students in assimilating into their undergraduate experience
- Coordinated schedules as well as team activities with other orientation leaders to create opportunities for students to be introduced to one another
- Aided in Mechanical Engineering students registering for classes by familiarizing self with the variety of introductory courses MSU offers as well as providing students with insight from own experience

## SKILLS

**Software:** AutoCAD, SolidWorks, Fusion 360, CREO, ABAQUS, Python, MATLAB, Vibe Coding

**Prototyping Tools:** 3D Printer, Laser Cutter, Mill, Lathe, Soldering Irons, Hand & Power Tools
